

# LUX GUARDIAN ANGEL

## AIR PURIFICATION SYSTEM

Every Home Should Have A Guardian Angel

Do you wake up each morning with a stuffy nose? Perhaps you've noticed that your office seems to collect dust along with paperwork. Indoor environments are often more polluted than outdoors and some rooms are worse than others. The Guardian Angel is a portable, true HEPA air purifier with 5 stages of filtration that removes 99.97% of contaminants as small as 0.3 micron from the air. Perfect for areas where you spend most of your time, the Guardian Angel protects you and your family from the harmful effects of indoor air pollution.

### True HEPA Filtration

A completely sealed, true HEPA system, the Guardian Angel removes 99.97% of harmful contaminants as small as 0.3 micron. An integrated air seal prevents air leakage and ensures all air passes through the HEPA filter. The Guardian Angel emits no ozone.

### Control Contaminants

Innovative technology called Photocatalytic Oxidation (PCO) uses the combination of UV light and titanium dioxide to control contaminants.

### Quiet Operation

The superior design of the motor, as well as a sturdy steel construction, provides for quiet operation.

### Odor Removal

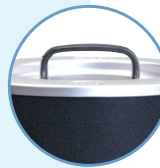

An activated carbon filter removes odors from the air.

### Long Life

The brushless motor provides long life and quiet operation. A metal screen protects the HEPA filter from damage.

### Aromatherapy

An essence container for aromatherapy packets is an optional way to freshen the air.

### Portability

An easy-to-use built-in handle makes moving the Guardian Angel from room to room a breeze. The removable handle also twists off to reveal a special compartment for dry aromatherapy!

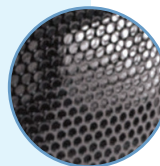

### High Efficiency

The Guardian Angel has a 3 position control knob for off, low and high settings. It uses less than 30 watts on high power and is Energy Star Certified.

### Extra Protection

A unique feature of the Guardian Angel is a washable cloth pre-filter that fits over the outside of the unit like a sweater, increasing efficiency and prolonging HEPA filter life.

### Advanced PCO Technology

After air passes through the pre-filter, carbon and HEPA filters, PCO treats the cleaned air to kill germs and control contaminants.

## AIR PURIFICATION SYSTEM

### Five-Stage Filtration

#### Stage 1: Washable Pre-filter

The pre-filter prolongs the life of the HEPA filter by removing large particulates before they can reach the HEPA filter. Clean the pre-filter when it becomes visibly covered with dust.

#### Stage 2: Sealed HEPA Filter

High Efficiency Particulate Air (HEPA) filter is 99.97% efficient at removing particles as small as 0.3 micron from the air.

#### Stage 3: Carbon Layer

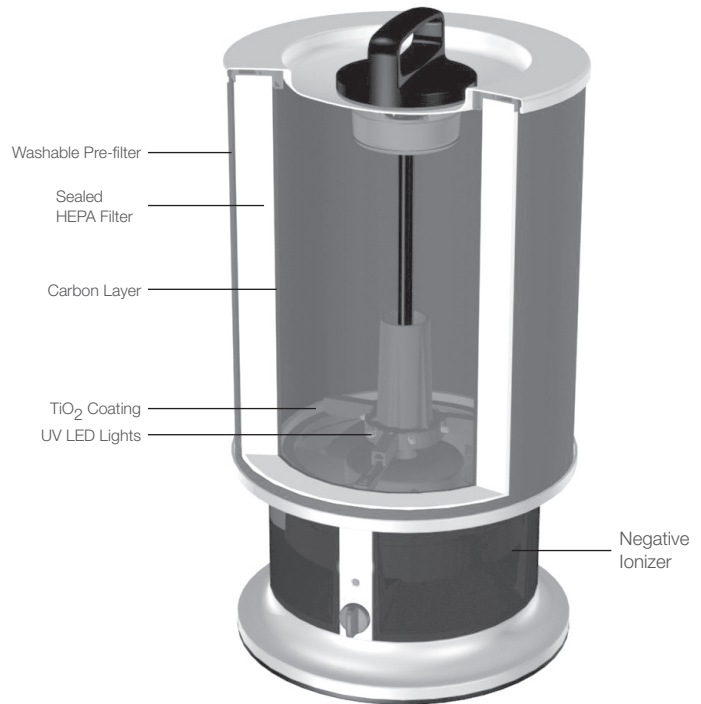

The filter cartridge contains a carbon layer to remove odors and VOCs that off-gas from household cleaners, paints, carpets, furniture and other materials containing chemical substances.

#### Stage 4: UV Light plus TiO<sub>2</sub> Coating

A photocatalytic oxidation reaction occurs when the UV light strikes the titanium dioxide (TiO<sub>2</sub>) coating on the inside of the filter cartridge to eliminate harmful contaminants in the environment.

#### Stage 5: Negative Ionization

Lastly, negative ionization occurs which charges particles so they will cluster together, making them easier to remove from the air.

#### SPECIFICATIONS

MODEL: F179A

Technology	PCO (Photocatalytic Oxidation)
Filtration	Sealed HEPA with Carbon Layer
Power Consumption	Low 16 Watts / High 28 Watts
Pre-filter	Washable, cloth prefilter covering
Air Exchange	108 sq. ft. at 8.5 ACH (air changes per hour), 375 sq. ft at 2.5 ACH, or up to 1,000 sq. ft. at 1.0 ACH
Room Size	Up to 1000 sq. ft.
Dimensions	Diameter: 10" (25,4 cm) Height: 18.7" (47,6 cm)
Weight	9.2 lbs (4,2 kg)

We offer a 5-year limited warranty for the Guardian Angel.  
Meets California ozone emissions limit. CARB Certified.

The First Name in Healthy Homes®

From 1924 through the turn of the century, we were

Electrolux, the clear leader in home cleaning throughout North

America. Now, we're Aerus, a new name for a new generation of products and

services designed to help make your home a Healthy Home. All backed by

performance so legendary, over 99.8% of our customers

recommend Aerus to their friends and family.

Honored by the Smithsonian  
Trusted by Millions of Homes

We Offer Lifetime In-Home Service

Aerus. Your Original Manufacturer & Authorized Provider  
of Parts & Services for all 1924-2003 Electrolux Vacuums.
